TELECOMMUNICATIONS POLICY

List of Contents and Author Index

Volume 22, 1998

PERGAMON

TELECOMMUNICATIONS POLICY

TELECOMMUNICATIONS POLICY is concerned with the regulation and management of telecommunications and information systems worldwide. It provides a focus for research and debate amongst academics and professionals studying such issues as competition and regulation in the telecommunications industry, telecommunications and economic development, and the convergence of new technologies and services.

CONTENTS OF VOLUME 22

Number 1 (February 1998)

Comments	1	A pan-European telecommunications regulator? *John Worthy and Rohan Kariyawasam*
	9	Politics and economics of telecom liberalization in India *T H Chowdary*
Papers	23	Consumer spending behavior and telecommunications services. A multi-method inquiry *Carl E Batt and James F Katz*
	47	The Costs of competition. FCC Telecommunication Orders of 1997 *A Michael Noll*
	57	Universal service and the Telecommunications Act of 1996. The fact after the act *James Prieger*
	73	Local number portability and local loop competition. Critical issues *Thomas H Reinke*

Number 2 (March 1998)

Papers	89	The battle over Internet domain names. Global or national TLDs? *Milton L Mueller*
	109	Competition in UK mobile communications *Tommaso M Valletti and Martin Cave*
	133	That pesky last mile. Call termination strategies for mobile satellite systems *Rob Frieden*
	145	An assessment of Thailand's new telecommunications plan *Robert D Cairns and Deunden Nikomborirak*
Conference report	157	Telecom Inter@ctive 97, organized by the International Telecommunication Union, Geneva, 8–14 September 1997 *Rob Frieden*
Book review	159	Internet Security Strategies and Solutions *Judith Jeffcoate, Caroline Chappel and Heather Stark* (Eds) (Alicia Clegg)

Number 3 (April 1998)

SPECIAL ISSUE

CONVERGENCE BETWEEN TELECOMMUNICATIONS AND OTHER MEDIA: HOW SHOULD REGULATION ADAPT?

Introduction	161	*Colin Blackman and Paul Nihoul*
Papers	163	Convergence between telecommunications and other media. How should regulation adapt? *Colin R Blackman*

171 Free and equal access. In search of policy models for converging communication systems
Jan van Cuilenburg and Pascal Verhoest

183 Communications infrastructure regulation and the distribution of control over content
Yochai Benkler

197 The impact of convergence on regulatory policy in Europe
Bernard Clements

207 Competition or regulation for multimedia?
Paul Nihoul

219 EC competition law and the convergence of the telecommunications and broadcasting sectors
Pierre Larouche

243 The proceduralization of telecommunications law
Colin Scott

255 Convergence and proceduralisation. Generalisation vs contextualisation?
Louis-Léon Christians

Number 4/5 (May/June 1998)

Comments

259 Telecom liberalization and competition in developing countries
T H Chowdary

267 The European Commission and the satellite industry combine forces to open markets
David Wright

273 A character for the Internet
Klaus W Grewlich

281 Universal service and Internet commercialization. Chasing two rabbits at the same time
Jae-Young Kim

Papers

289 Price discount schemes and inter-country comparisons of telecommunication tariffs
Patrick Xavier

315 The role of resale entry in promoting local exchange competition
T Randolph Beard, David L Kaserman and John W Mayo

327 Internet dropouts in the USA. The invisible group
James E Katz and Philip Aspden

341 Telecommunications in Mexico
Adrian E Gonzalez, Amar Gupta and Sawan Deshpande

359 Was PLDT a natural monopoly? An economic analysis of pre-reform Philippine telecoms
Ramonette B Serafica

	371	Policy issues for cable startup in smaller countries. The case in South Korea *Hyuhn-Suhck Bae and Thomas F Baldwin*
	383	Back to the future. Digital television and convergence in the United Kingdom *Richard Collins*

Papers	409	Government assessment of FCC performance. Recurring patterns and implications for recent reform efforts *Philip M Napoli*
	419	Competition between regional standards and the success and failure of firms in the world-wide mobile communication market *Jefrey L Funk*
	443	Policy evolution in the information economy. An assessment of the Victoria 21 strategy *Stephen Braim*
Conference report	453	Liberalizing European Telecommunications. De-Regulation: How EU Law will Open Europe's Telecommunications Markets, ICC and IBC, Brussels, 2 December 1997
Book Review	455	Global connections. International Telecommunications Infrastructure and Policy *Heather E Hudson* (Ed)

Number 6 (July 1998)

Comments	457	European mediamatics policies. Coping with convergence and globalization *Michael Latzer*
	467	Competition aspects of pricing access to networks. What are the issues? *Jonathan Michie*
Papers	471	Change, politics and determinist economics in Europe *J B K Rickford*
	483	The licensing of telecommunication suppliers. Beyond the EU's Directive *Patrick Xavier*
	493	Impacts of the 1996 Telecommunications Act on the US model of telecommunications policy *M Cimatoribus, A De Tommaso and P Neri*
	519	Albanian telecommunication reform. The road less travelled *Niall Levine, Mimosa Manxhari, Doug Pitt*
	541	Regional universal telecommunication service provisions in the US. Efficiency versus penetration *Mustafa Dinc, Kingsley E Haynes, Roger R Stough and Serdar Yilmaz*

Number 7 (August 1998)

Papers 555 Internet telephony. Costs, pricing, and policy
L W McKnight and B Leida

571 The EU regulatory framework in telecommunications. A critical analysis
T Kiessling and Y Blondeel

593 Duopoly and competition. The case of American cellular telephone
H S Fullerton

609 ISDN services in Greece. Current status and future prospects
H Gaglia and D Yannelis

617 The Iowa communications network. The policy implications of publicly funded infrastructure
D Caristi

Letter to the Editor 629 Unrestricted access in the local context
E B Parker (Ed)

Conference report 631 Liberalization of global telecoms: it is accomplished?

Number 8 (September 1998)

Comment 635 The future of telecommunications operator alliances
J Monlouis

Papers 643 Towards next generation regulation
D Ypsilanti and P Xavier

661 Auctions. An alternative approach to allocate universal service obligations
L Nett

671 Regulatory reform of telecommunications in Switzerland
S Bühler

681 International telephony revenue settlement reform
A Thuswaldner

697 The political economy of the Korean telecommunications reform
S G Hong

713 The development of information infrastructure in Hong Kong
P-L Lam

Book review 727 Commercial Strategies for Internet Telephony
Margaret Hopkins, Philip Lakelin with Karin Sherwood (Alicia Clegg)

Number 9 (October 1998)

Comments 729 The impending dismantling of European union telecommunications regulation
G Mårtenson

	739	Benefits of open markets in satellite communications *G E Oberst, Jr*
Papers	745	Fast Internet. An analysis about capacities, price structures and government intervention *R Pospischil*
	757	The Finnish telecommunications market. Advantage of local access incumbency *P M Nattermann and D D Murphy*
	775	Stages of universal service policy *C Milne*
	781	Lifestyles and the use of new media technology in urban China *L Leung*

Number 10 (November 1998)

Comment	791	Corporations vs. communities. Evolution of wireless services in the US and the devolution of local control *R G Lentz*
Papers	797	International economic relationships in telecommunications. A painful transformation *M Tyler and S Bednarczyk*
	817	Convergence and new regulatory frameworks. A comparative study of regulatory approaches to Internet telephony *R Ono and K Aoki*
	839	A dynamic universal service for a heterogenous European Union *T Hart*
	853	Vanitas vanitatum. Alphanumeric use of service numbers *N van Eijk*
	863	A robust methodology for setting tariffs *J T Buchanan*
	875	Pricing policy and regulation in the Greek telecommunications market *D Yannelis*

Number 11 (December 1998)

Introduction	883	The future of international settlements *M Cave and L Waverman*
Papers	899	FCC benchmarks and the reform of the international telecommunications market *P Cowhey*
	913	Using call-back to demonstrate the discriminatory nature of the proportionate return rule *M Scanlan*

931 Internet telephony and the international accounting rate system
R Mason

945 Distinctive arrangements for international interconnection?
D A Galbi

953 Interconnection in international telecommunications. An empirical investigation of United States settlement rates
G Madden and S J Savage

963 Falling through the cracks. International accounting rate reform at the ITU and WTO
R Frieden
